Item 2.02. Results of Operations and Financial Condition.

The information set forth under "Item 2.02. Results Of Operations and Financial Condition," including the Exhibit attached hereto, shall not be deemed "filed" for purposes of Section 18 of the Securities Exchange Act of 1934, nor shall it be deemed incorporated by reference in any filing under the Securities Act of 1933, except as shall be expressly set forth by specific reference in such filing.

Attached and incorporated herein by reference as Exhibit 99.1 is a copy of a press release of CME Group Inc. dated October 29, 2015, reporting CME Group Inc.'s financial results for the quarter ended September 30, 2015.

To supplement CME Group's financial statements on a GAAP basis, the attached press release includes financial measures that are not in accordance with GAAP, consisting of non-GAAP net income and earnings per share. Management believes that the presentation of non-GAAP net income and earnings per share provide important supplemental information to management and investors about financial and business trends relating to CME Group Inc.'s financial condition and results of operations. Management believes that the use of these non-GAAP financial measures provide a better measure of comparability with the Company's prior financial reports. Management acknowledges that non-GAAP adjustments may include recurring items. These non-GAAP measures should be considered as a supplement to, and not as a substitute for, or superior to, the corresponding measures calculated in accordance with GAAP. Pursuant to the requirements of Regulation G, CME Group Inc. has included a reconciliation of the non-GAAP financial measures to the most directly comparable GAAP financial measures in the press release.

Item 9.01 Financial Statements and Exhibits.

A copy of the press release is attached hereto as Exhibit 99.1.

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, as amended, the registrant has duly caused this report to be signed on its behalf by the undersigned hereunto duly authorized.

CME-G

FOR IMMEDIATE RELEASE

CME Group Inc. Reports Strong Third-Quarter 2015 Financial Results

- Third-quarter 2015 revenues rose 12 percent to \$850 million
- Third-quarter 2015 adjusted net income of \$344 million and adjusted diluted earnings per share of \$1.02 both grew more than 20 percent¹

CHICAGO, October 29, 2015 - CME Group Inc. (NASDAQ: CME) today reported revenues of \$850 million and operating income of \$516 million for the third quarter of 2015. Net income was \$360 million and diluted earnings per share were \$1.06. Excluding the items noted in the reconciliation, adjusted net income would have been \$344 million and adjusted diluted earnings per share would have been \$1.021.

"We delivered balanced organic revenue growth in the third quarter," said CME Group Executive Chairman and President Terry Duffy. "Commodity products revenue grew by 14 percent, financial products were up 10 percent, and market data revenue rose 13 percent. This top-line performance, coupled with solid expense discipline, resulted in earnings growth above 20 percent, similar to the level of growth produced during the first half of the year. In addition, we generated a substantial amount of cash flow during the quarter, positioning us well to return a meaningful amount of capital to our shareholders in the coming months."

"Our focused growth initiatives are significantly increasing our global activity," said CME Group Chief Executive Officer Phupinder Gill. "For the third quarter, electronic trading revenue from customers outside the United States reached a record 32 percent. Additionally, we have made system enhancements, launched new products and heavily engaged with customers to continue to drive our expanding options business. During the quarter, we reached record levels of options volume and the highest percentage of volume traded electronically. In addition, we have been very active over the last few months partnering with global exchanges and index providers to further drive long-term growth."

1. A reconciliation of the non-GAAP financial results mentioned to the respective GAAP figures can be found within the Reconciliation of GAAP to non-GAAP Measures chart at the end of the financial statements.

Page 2

Third-quarter 2015 average daily volume was 14.4 million contracts, up 7 percent from third-quarter 2014, and included record quarterly options average daily volume as well as double digit growth across all commodities product lines. Clearing and transaction fee revenues were \$715 million, up 11 percent compared with third-quarter 2014. Market data revenue was \$100 million, up 13 percent compared with the third quarter last year. Third-quarter 2015 total average rate per contract was 75.9 cents, down from 77.7 cents in second-quarter 2015, driven primarily by higher volume discounts as well as a sequential product mix shift from commodities to equity index products which capture lower fees.

As of September 30, 2015, the company had \$1.5 billion of cash and marketable securities and \$2.2 billion of long-term debt. In September, the company paid out \$168 million in its regular quarterly dividend of 50 cents per share.

CME Group will hold a conference call to discuss third-quarter 2015 results at 8:30 a.m. Eastern Time today. A live audio Webcast of the call will be available on the Investor Relations section of CME Group's Web site at www.cmegroup.com. An archived recording will be available for up to two months after the call.

As the world's leading and most diverse derivatives marketplace, CME Group (www.cmegroup.com) is where the world comes to manage risk. CME Group exchanges offer the widest range of global benchmark products across all major asset classes, including futures and options based on interest rates, equity-indexes, foreign-exchange, energy, <a href="mailto:agricultural commodities, <a href="mailto:metals, weather and <a href="mailto:real-estate. CME Group also operates one of the world's leading central counterparty clearing providers through CME Clearing Europe, which offer clearing and settlement services across asset classes for exchange-traded contracts and over-the-counter derivatives transactions. These products and services ensure that businesses everywhere can substantially mitigate counterparty credit risk.

Statements in this press release that are not historical facts are forward-looking statements. These statements are not guarantees of future performance and involve risks, uncertainties and assumptions that are difficult to predict. Therefore, actual outcomes and results may differ materially from what is expressed or implied in any forward-looking statements. We want to caution you not to place undue reliance on any forward-looking statements. We undertake no obligation to publicly update any forward-looking statements, whether as a result of new information, future events or otherwise. Among the factors that might affect our performance are increasing

competition by foreign and domestic entities, including increased competition from new entrants into our markets and consolidation of existing entities; our ability to keep pace with rapid technological developments, including our ability to complete the development, implementation and maintenance of the enhanced functionality required by our

customers while maintaining reliability and ensuring that such technology is not vulnerable to security risks; our ability to continue introducing competitive new products and services on a timely, cost-effective basis, including through our electronic trading capabilities, and our ability to maintain the competitiveness of our existing products and services, including our ability to provide effective services to the swaps market; our ability to adjust our fixed costs and expenses if our revenues decline; our ability to maintain existing customers, develop strategic relationships and attract new customers; our ability to expand and offer our products outside the United States; changes in domestic and non-U.S. regulations, including the impact of any changes in domestic and foreign laws or government policy with respect to our industry, such as any changes to regulations and policies that require increased financial and operational resources from us or our customers; the costs associated with protecting our intellectual property rights and our ability to operate our business without violating the intellectual property rights of others; decreases in revenue from our market data as a result of decreased demand; changes in our rate per contract due to shifts in the mix of the products traded, the trading venue and the mix of customers (whether the customer receives member or non-member fees or participates in one of our various incentive programs) and the impact of our tiered pricing structure; the ability of our financial safeguards package to adequately protect us from the credit risks of clearing members; the ability of our compliance and risk management methods to effectively monitor and manage our risks, including our ability to prevent errors and misconduct and protect our infrastructure against security breaches and misappropriation of our intellectual property assets; changes in price levels and volatility in the derivatives markets and in underlying equity, foreign exchange, interest rate and commodities markets; economic, political and market conditions, including the volatility of the capital and credit markets and the impact of economic conditions on the trading activity of our current and potential customers; our ability to accommodate increases in contract volume and order transaction traffic and to implement enhancements without failure or degradation of the performance of our trading and clearing systems; our ability to execute our growth strategy and maintain our growth effectively; our ability to manage the risks and control the costs associated with our strategy for acquisitions, investments and alliances; our ability to continue to generate funds and/or manage our indebtedness to allow us to continue to invest in our business; industry and customer consolidation; decreases in trading and clearing activity; the imposition of a transaction tax or user fee on futures and options on futures transactions and/or repeal of the 60/40 tax treatment of such transactions; the unfavorable resolution of material legal proceedings; and the seasonality of the futures business. For a detailed discussion of these and other factors that might affect our performance, see our filings with the Securities and Exchange Commission, including our most recent periodic reports filed on Form 10-K and Form 10-Q.
