On September 22, 2005, Mr. Michel D. Marks, the founding member of 816 Partners LLC ("816 Partners") and a stockholder of NYMEX Holdings, Inc. ("NYMEX"), delivered a letter to the NYMEX shareholders, along with a copy of a letter that Mr. Marks had previously delivered to the NYMEX Board of Directors that describes 816 Partners' proposal for a transaction with NYMEX. A copy of Mr. Marks' letter to shareholders, including the attached letter to the NYMEX Board of Directors, is filed herewith as Exhibit 2.

The letters are being filed as "soliciting materials" pursuant to Rule 14a-12 under the Securities Exchange Act of 1934 because NYMEX has announced that it has signed a non-binding letter of intent with General Atlantic LLC pursuant to which General Atlantic would invest \$135 million for a 10% equity stake in NYMEX and consummation of the transaction would be subject to approval by NYMEX shareholders, among other conditions. Because the letters may be deemed to relate to a matter on which shareholders may in the future be asked to vote, they are being filed herewith by 816 Partners. 816 Partners does not hereby concede that the letters constitute proxy soliciting material.

SECURITY HOLDERS ARE ADVISED TO READ THE PROXY STATEMENT AND/OR CONSENT SOLICITATION STATEMENT RELATING TO THE SOLICITATION OF PROXIES OR WRITTEN CONSENTS BY 816 PARTNERS LLC AND CERTAIN OF ITS AFFILIATES FROM THE STOCKHOLDERS OF NYMEX HOLDINGS, INC. WHEN AND IF COMPLETED, A DEFINITIVE PROXY OR CONSENT SOLICITATION STATEMENT AND A FORM OF PROXY OR WRITTEN CONSENT WILL BE MAILED TO STOCKHOLDERS OF NYMEX HOLDINGS, INC. AND WILL BE AVAILABLE AT NO CHARGE AT THE SECURITIES AND EXCHANGE COMMISSION'S WEBSITE AT [HTTP://WWW.SEC.GOV](http://www.sec.gov). Dear Fellow Shareholders,

In the spirit of being open and inclusive, I am writing to you personally to update you on our proposal and discussions with the Board.

Yesterday, at Mitchell Steinhouse's request, I met with Mitch and Richard Schaffer to give them the details of our proposal for a new vision for NYMEX. As has been reported in the press, this proposal is backed by Hellman & Friedman, a leading private equity firm. We confirmed our proposal in the attached letter which was delivered to the Board prior to yesterday's meeting.

I have not received a response from the Board regarding our proposal. In particular, the Board has not indicated whether it will permit us to conduct due diligence and if not, why not.

Like you and all shareholders, I am very interested to hear the Exchange leadership's rationale for entering into a transaction with General Atlantic. The meeting on September 29 is an opportunity to learn the specific terms of the transaction and for shareholders to bring their questions and concerns out into the open.

To my knowledge, the Board has not seen fit to make a copy of its letter of intent with General Atlantic available to shareholders. As you know, my paramount concern is the future of the Exchange and how we, as shareholders, can capitalize on the opportunities before us and realize the highest value for our investment.

It is in the best interests of everyone to remain focused on that goal and go the extra mile. A robust exchange of opinions is necessary.

I remain keenly interested in your views and encourage you once again to contact me at any time.

Warm regards,

/s/ Michel

To the NYMEX Board:

I appreciated the opportunity to meet with your representatives this morning. I would like to apprise you of the proposal that I made in order to ensure that it is understood. For this transaction, I have formed a group of seasoned industry professionals, 816 Partners, and we have decided to partner with Hellman & Friedman, a leading San Francisco-based firm with \$8 billion under management.

The foundation of our offer is a new vision for NYMEX that will meet the critical issues facing the Exchange for the benefit of all NYMEX stakeholders. I am prepared to be fully engaged in addressing these challenges and opportunities. I would serve at the pleasure of the shareholders in a position they choose.

Hellman & Friedman is prepared to back 816 Partners to sponsor a transaction that benefits all constituents in the Exchange and delivers value superior to that reportedly being offered by Blackstone or General Atlantic.

- o Based on our review of public information, we value 100% of the equity of the business at \$1.4 billion. If we were permitted to conduct due diligence, that valuation could well be higher.
- o We are prepared to enter into a fully-financed cash transaction to acquire 10% of the equity of the Exchange either from existing shareholders who want some liquidity or from the Exchange via a primary issuance of shares.
- o We are also prepared, if shareholders desire, to consider a cash transaction involving a greater percentage ownership.
- o Our investment will not require NYMEX balance sheet leverage unless that is the desire of the shareholders.
- o We are willing to address the value of trading rights, lease income and the remaining equity stakes as the shareholders may desire.

We are prepared to commence due diligence immediately and complete it expeditiously.

Our team, together with Hellman & Friedman, brings considerable value to the table, aside from money alone. My experience with the Exchange as its Chairman and as a member is well known to each of you. Just as I assisted in meeting the challenges facing the Exchange in the early 1980s and led the development of the energy complex, today I am prepared to lead the Exchange in confronting the challenges in technology, competition and the transition to a public company governance structure.

Hellman & Friedman has assisted management groups facing such challenges in the past as both a strategic and financial partner. Most notable is their experience with The Nasdaq Stock Market where Frank Zarb, then Chairman of the NASD, turned to Hellman

& Friedman to assist in the transformation of The Nasdaq Stock Market into the profitable public exchange it is today. Frank is now a partner of Hellman & Friedman and, together with his colleagues, can assist in the transformation of the Exchange.

With that, we make the following requests to the Board:

- o Do not make any decision today regarding a transaction with Blackstone or General Atlantic.
- o Grant immediate access to 816 Partners and Hellman & Friedman to conduct due diligence on the same basis that other bidders have been allowed access.
- o Do not commit to any terms that would impede a potential transaction with 816 Partners and Hellman & Friedman, e.g., a break-up fee, expense reimbursement, a no shop provision, or any other restrictions limiting our ability to conduct due diligence.

As a shareholder, I am concerned that your representatives have conducted an arbitrarily limited process to date. Based upon public information, it appears that only two potential investors were permitted to conduct due diligence. Again, I am concerned that the form of transaction negotiated has been based on parameters set by your representatives, not the shareholders. The Board owes it to the shareholders to consider proposals other than the two on the table. The deadline of today is artificial and self-imposed. We believe it is never too late to entertain a transaction that is better for all stakeholders.

/s/ Michel
